Andhra Pradesh and Telangana

Andhra Pradesh and Telangana are two industrially developed states in India.

They are growing at above average for several years, attracting investment in industries ranging from IT, ITEs, Engineering, Cement and heavy industries.

Some major projects include, new airports, irrigation projects, pharma city, SEZs and so on.

In this scenario, we bring this State Directory of Andhra Pradesh and Telangana Directory 2023, which is an attempt to profile the industries, manufacturing facilities and companies in the state with their company profile, expansion plans etc., along with details of key personnel, address, tel/fax/email etc.,.

The directory covers all manufacturers in Andhra Pradesh and Telangana covering all sectors like cement, steel, sugar, food, metal, engineering and miscellaneous.

Overview

Andhra Pradesh and Telangana are two of the most industrially developed states in India. Both states offer a favourable climate for businesses and have made significant progress in attracting investments in recent years.

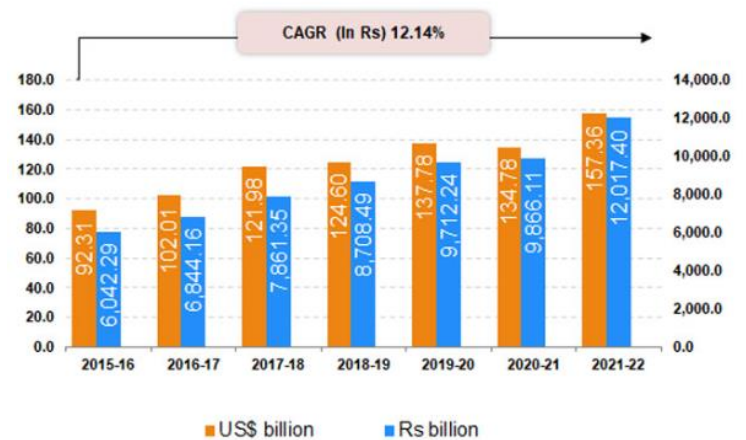

Andhra Pradesh Industrial Climate and Opportunities:

Andhra Pradesh has been recognized as one of the fastest-growing states in India, with a GDP growth rate of 10.93% in 2019-2020. The state has a vast coastline of 974 km, which makes it a hub for shipping and logistics activities. The state government has taken several initiatives to promote industries in the state, such as the single desk policy, which aims to provide a single window clearance system to investors.

The state is known for its robust industrial base, with sectors such as pharma, textiles, food processing, and agriculture being the most significant contributors. The state has a strong presence in the IT sector, with several IT parks located in cities such as Vishakhapatnam and Tirupati. The state is also home to several ports, including the Krishnapatnam port, which is the largest private sector port in the country.

The Andhra Pradesh government has announced several initiatives to promote industries in the state. These include the establishment of the Andhra Pradesh Industrial Corridor Development Authority (APICDA), which aims to develop industrial corridors in the state. The government has also announced plans to establish an aerospace park in the state, which would provide a significant boost to the aerospace industry in Andhra Pradesh.

Andhra Pradesh and Telangana

Telangana Industrial Climate and Opportunities:

Telangana is a relatively new state, having been formed in 2014. However, the state has made rapid progress in industrial development since its formation. The state has a well-established industrial base, with sectors such as IT, Pharma, and Biotechnology being the most significant contributors to the state's economy.

The state has several initiatives to promote industries, such as the TS-iPASS (Telangana State Industrial Project Approval and Self-Certification System), which aims to provide a single window clearance system to investors. The state government has also announced several incentives to investors, such as exemption from electricity duty and stamp duty.

The state is known for its robust IT sector, with several IT parks located in cities such as Hyderabad, Warangal, and Karimnagar. The state has a strong presence in the pharma sector, with several large pharma companies having their manufacturing units in the state.

**About the Company**

A G Industries is manufacturer of plastic auto components with injection moulded parts. The company is a part of the Hero Group with 100% shareholding of family members. The company was established in 1993 and is now one of the top 50 manufacturers in this category in the world.

It has recently set up another new manufacturing facility at Bawal through a group company - GMAX. The Gurgaon plant was started in 1993; Manesar plant in 2002 and the plant in Haridwar was started in 2008 to cater to the HMCL's Haridwar plant. AGPL is the primary supplier of large injection molded plastic parts to HMCL and caters to all the three manufacturing facilities of the OEM

The company has entered into manufacturing of Air Bag covers with technical assistance from K.D Corporation (Korea) . The safety plastic components manufactured by the company, are being used in the cars of Maruti Suzuki, Ford, Tata, Nissan and many others in the export markets through Tier I suppliers like Autoliv India & Mann and Hummel.
