# Indian Breweries and Distilleries Sector

India's brewery and distillery sector has been growing at average of 8-9 % for several years.

Its size is expected to reach US\$ 70 billion by 2026 from the current size of US\$ 52 billion.

The growth in Indian domestic market will be on back of increasing consumer spending and rapid urbanization and adoption of ethanol blended fuels in automotive and government incentives. This will lead to substantial growth opportunity for brewery and distillery companies.

In this scenario, we bring this Breweries and Distilleries Directory 2024, which is an attempt to report on the breweries and distillery companies with their basic profile, current capacity, and expansion plans etc., along with details of address, tel, fax, email and details of key personnel.

## Overview

Alcohol use in India goes back to Vedic ages. The scriptures talks about techniques to be used in fermentation. So, it is no surprise that India has a brisk brewery and distillery sector. It is now, one of the fastest growing marketplace for alcoholic beverages in the world. Though it suffered a blip due to Covid induced disruptions, it has recovered well in 2022. The brewery and distillery industry is estimated at a market size of over USD 52 billion and expected to reach USD 70 billion by 2026.

Further, Ethanol market is increasing at 13% due to "New Ethanol Blending Programme" which makes compulsory for oil manufacturing companies (OMCs) to blend 10% ethanol in petrol by end of 2022 and 20% till 2025.

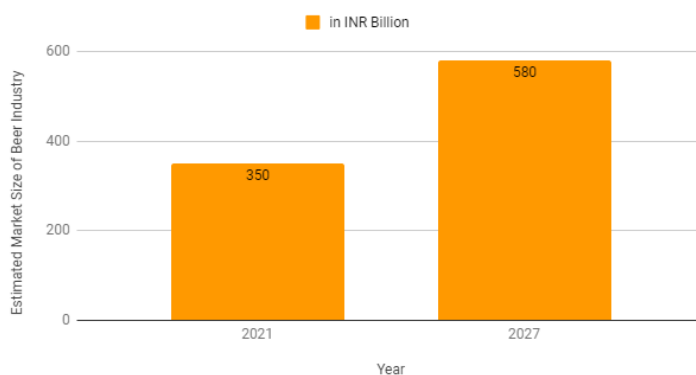

Automotive Industry is also set to produce Fuel Flex vehicles that can take 85% ethanol will help India the dependence on costly imports.

**Brewery Industry:** Indian Beer industry is growing at 7-9 % over the last 10 years.

Exposure to global culture and frequent travel abroad, changing youth helps to grow the industry. The Indian beer market is dominated by strong beers (>5% alcohol by volume), which account for 70% of the total beer industry. The premium beer market is a mere 5% of the total but this segment is rapidly expanding, touching a growth rate of between 35-40%.

However, the Indian beer industry is hampered by government regulations. It is highly taxed, apart from restrictions imposed on free trade. There are entry and export taxes when stocks are moved across states, further the government is fixing the price of beer, leaving no room for free trade. Further the number of retail outlets are also very less compared to developed world or in case of China. India does not allow sales of Beer/Wind in retail stores making access to consumer a challenge.

India Beer Market Forecast

# Indian Breweries and Distilleries Sector

---

**Distillery Industry:** From the traditional production of alcohol, it has moved to modern age production when the need arose for supply to British Army. The modern industry started with Carew & Co. Ltd which had set up the first distillery in 1805 in Kanpur for the army barracks.

The distillery industry today consists broadly of two parts, one potable liquor and the industrial alcohol including anhydrous ethanol for blending with petrol. The potable industry producing Indian Made Foreign Liquor (IMFL) and Country Liquor has a steady but limited demand with a growth rate of about 7-10 per cent per annum. Indian Liquor industry is today exporting a sizable quantity of Indian Liquor products to other countries.

The alcohol industry has a total installed capacity of 4200 million liters of alcohol in a year. However, the licensed capacity is concentrated in three states of U.P., Maharashtra and Tamilnadu. World over ethanol is mixed up with petrol and the percentage varies across the world. It is highest in California where the percentage is 30%-40% and in Brazil 20-25%. In India, the percentage is 5% which shows the untapped potential in India

**About the Company**

Accord Breweries and Distilleries Pvt Ltd was promoted as AM Breweries Pvt Ltd, Chennai, Tamil Nadu. The company is engaged in the production and sale of alcoholic beverages. The company is part of the Chennai based Accord Group, which is promoted by Mr. Jagathratchagan and his family members. The name was changed to Accord Distillers & Brewers Private Limited in Jan 2018. The merger of Elite Distilleries Pvt Ltd with ADBPL was approved by State Excise Department in Oct 2018.

ADBPL has 24 active Brands, which are categorized into three range segments such as Premium, Medium and Ordinary range Brands. Age Dee Oak Brandy, Hollandus Spanish Brandy, Royal Accord Premium French Brandy, Honiey Day Brandy and Accord No.1 Brandy are the popular IMFL brands. ADBPL also has 4 active Brands for Breweries such as 10000 Volts Super Strong, Royal Accord Super Strong, Carlsberg and Tuberg. The company sells its products to TASMAL (owned by the Government of Tamil Nadu).
