Tamil Nadu is one of the most industrialized state with diversified industries in India.

The state has a thriving automotive sector, chemicals, textiles, small and medium engineering, IT, Electricals and Engineering and so on.

The state also has a robust electronics manufacturing ecosystem with major players like Samsung, LG, and Foxconn having established their presence in the state

In this scenario, we bring this State Directory of Tamil Nadu Directory 2024, which is an attempt to profile the industries, manufacturing facilities and companies in Tamil Nadu, with their company profile, expansion plans etc., along with details of key personnel, address, tel/fax/email etc.,.

The directory covers all manufacturers in the above mentioned states covering sectors like Cement, Food, Engineering, Textiles etc.,

Overview

Tamil Nadu is one of the most industrialized states in India with a diverse range of manufacturing industries ranging from automobiles, electronics, textiles, pharmaceuticals, chemicals, and petrochemicals. The state's strategic location on the east coast of India, well-developed infrastructure, abundant natural resources, and favourable business climate make it an attractive destination for industrial investment.

The industrial climate of Tamil Nadu has been consistently improving over the years with the state government's proactive policies and initiatives to promote industrial growth. The state government has set up various industrial parks and special economic zones (SEZs) across the state to provide a conducive environment for businesses to thrive. The state's ease of doing business ranking has also improved significantly in recent years, making it easier for businesses to set up and operate in the state.

Tamil Nadu's industrial sector offers a plethora of business opportunities across various sectors. The state's automobile industry is one of the largest in India, with companies like Hyundai, Ford, Renault Nissan, and BMW having set up their manufacturing plants in the state. The state also has a robust electronics manufacturing ecosystem with major players like Samsung, LG, and Foxconn having established their presence in the state. The textile industry is another major sector in Tamil Nadu, with the state accounting for around 45% of India's total textile exports.

In addition to these established industries, Tamil Nadu also offers immense potential for future industrial prospects. The state's renewable energy sector is poised for significant growth, with the government's focus on achieving a target of 9,000 MW of solar power by 2023. The state also has a thriving IT and software industry, with Chennai being one of the major IT hubs in India. The government's efforts to promote start-ups and entrepreneurship are expected to further boost the state's IT industry in the coming years.

GSDP of Tamil Nadu at Current Prices

Another potential growth area for Tamil Nadu is the food processing industry, with the state's rich agricultural resources and diverse cuisine providing ample opportunities for food processing businesses. The state's tourism industry is also expected to witness significant growth in the coming years, with the government's focus on promoting eco-tourism and heritage tourism.

In conclusion, Tamil Nadu's industrial climate is conducive to business growth and offers a diverse range of opportunities across various sectors. With the government's focus on promoting industrial growth and ease of doing business, the state is well-positioned to attract more investment and further strengthen its position as a leading industrial state in India.

About the Company

A Arunachalam & Co was incorporated in the year 1997. It is a family run organisation managed by Mr. A. Arunachalam Chettiar. The company is headquartered in Kangeyam near Dindugul in Tamil Nadu. The ghee making process can be done in various methods namely indigenous (Desi) method, direct cream method, creamery butter method, pre-stratification method and continuous methods. AAC uses melting vat and mechanical clarifier which it claims retention of more Vitamin A in the product. The company also exports its dairy products to Singapore, Bahrain, Dubai and United Arab Emirates.
