Indian Engineering Sector

India's basic manufacturing sector has been growing at average of 5-6 % for several years.

Its size is expected to reach US\$ 1.0 trillion by 2027. The growth in Indian domestic market will be on back of increasing expenditure of Atmanirbhar Bharat and related defence production. There is also spill of effect of expenditure in highway construction, metro rail network across 15 cities, bullet trains and electric vehicle charging infrastructure and so on.

In this scenario, we bring this Engineering Directory 2026, which is an attempt to report on the engineering companies with their basic profile, current capacity, and expansion plans etc., along with details of address, tel, fax, email and details of key personnel.

This directory covers all equipment mfrs, electrical and electronic products and many more..

Overview

Indian Engineering Sector is the largest in India accounting for more than 27% of the factories. It is also the largest technology assimilator. (with over 60% of foreign technical collaborations from developed countries).

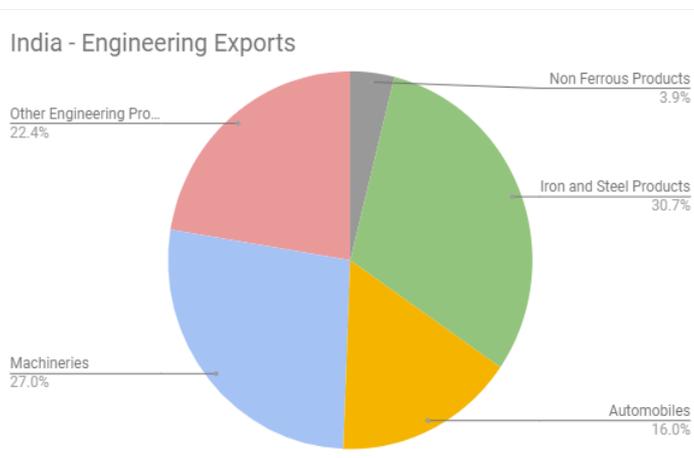

Engineering accounts for about 25% of India's total global exports in the goods sector and is one of the largest foreign exchange earners. India's engineering goods are exported to key markets such as the US, Europe, and UAE. The overall exports of engineering goods is expected to reach US\$ 200 billion by 2030.

Engineering sector depends on other basic industries like infrastructure, electricity generation, mining, oil and gas, refinery, steel, automobiles, and consumer durables.

Some of the larger heavy industrial corporation like BHEL, ICF and SAIL in public sector provided a fillip to engineering sector in initial stages. Various sub-assembly factories thrived around the larger plants. Later

Automotive, Chemicals, Refining, Wind Power Generation, ISRO and Defence also key factors which drove innovation and cost advantage of India.

The Indian Engineering sector is large and the following are covered in this directory. **Agricultural Equipment, Air Conditioners, Boilers, Cables, Construction Equipment, Consumer Durables, Electrical Equipment. Electronic Products, Forgings, Heavy Engineering, Instrumentation, Lighting Equipment, Material Handling Equipment, Telecom Equipment, Transformers, Switchgears and Turbines..**
